Subject: Erick Luna Letter of Recommendation

To Whom It May Concern,

It is without hesitation that I pen this letter of recommendation for Erick Luna. Erick was employed by Krieger & Stewart for 5 years as a Construction Inspector, and was an essential member of our inspector corps. Erick was assigned to a variety of water and wastewater projects for our public agency clients. During his time at K&S, Erick demonstrated again and again that he was a key team member in promoting and protecting our clients' interests and bottom line. He will be missed at our firm.

Erick's skill set is extraordinary. Erick is capable and comfortable with essentially all aspects of public works construction, including grading, underground utilities, pavement, structural concrete, mechanical, electrical, etc.. Further, and in our view just as important, Erick's communication style serves him well in the inspector roll. Due in large part to his prior experience as a public works contractor, he not only understands appropriate methods, he also understands how to work with different trades and personalities. He is always direct, respectful and professional and is not intimidated by contractors. Erick focuses on progress, while ensuring the Work is constructed in accordance with project specifications.

Erick possesses traits that would benefit any organization. He is dependable and dedicated. He completes his paperwork on time. He establishes rapport and confidence with those he works with. On the rare occasions where he is uncertain about a particular matter, he doesn't hesitate to reach out to others to improve his understanding and confirm the appropriate course of action. And, perhaps most importantly, Erick solve problems, he doesn't create them.

In closing, I believe that Erick Luna would be a valuable addition to any organization, public or private.

Thank you for your consideration.

Respectfully,

A handwritten signature in blue ink that reads 'Charles A. Krieger'.

Charles A. Krieger  
President of Krieger & Stewart, Incorporated
