RE: Letter of Recommendation – Erick Luna

To Whom It May Concern,

The following information and recommendation is being provided on behalf of Erick Luna. In my capacity as the Director of Public Works for the City of Norco, I have worked closely with Erick for the past two years in his role as a contract inspector for three high priority capital improvement projects. Those projects included an upgrade/expansion to an existing Groundwater Treatment Plant, construction of two new 1 MG potable water reservoirs and booster pump station, and replacement of an existing 2 MG potable water reservoir with a new 3 MG potable water reservoir. During his time with Norco, Erick has proven to be a hard-working and responsible individual and I am delighted to provide this letter of recommendation.

Erick was an incredible asset in successfully providing inspection services for all three projects for the City of Norco. I was very impressed with Erick's vast construction knowledge which allowed him to interpret detailed plans and make functional and cost effective recommendations whenever modifications or changes were warranted. Erick makes every effort to understand the purpose and ultimate use for each project and showed great attention to detail to ensure the end product would meet the City's intended needs and performance.

As the project inspector, Erick performed the function of liaison/advocate for the City between the contractor, sub-contractors, and third party environmental consultants/inspectors. In this role Erick was a consummate professional and team player while always advocating for the Norco's best interests. Erick routinely kept the City informed regarding the progress of each project and quickly notified staff of any issue that might result in a change order or require redesign. Erick's work ethic, professionalism, and problem solving abilities was very much appreciated and will be missed. I can confidently say that Erick Luna would make a positive and beneficial addition to any company and has my highest recommendation.

Respectfully,

Chad Blais
Director of Public Works
City of Norco
